NON-MAINTENANCE OF CUSTOMERS' PIPING NOTICE

Per 49 CFR, 192.16 Frontier Natural Gas is required to notify you that Frontier Natural Gas owns and maintains only the gas piping that delivers gas to the gas meter. Piping downstream of our meter, including buried yard line and the piping in the walls of buildings, is owned, operated and maintained by the customer, not Frontier Natural Gas.

Customers' piping that is not installed, operated and maintained properly can be a source of hazard due to corrosion and leakage. Customers should retain the services of a licensed plumber or heating contractor to periodically check their piping system to be sure it is gas-tight and free of corrosion. This is especially true for buried metallic piping, which can corrode quickly if exposed to the soil.

Corrosion, leakage or other unsafe conditions should be repaired promptly by a qualified professional.

If you are unsure of the safety of your gas piping, contact a licensed plumber or heating contractor, or call Frontier Natural Gas at 336-526-2690 for assistance. For your convenience, you may also call Frontier Natural Gas' toll free number: 800-537-2545.

Buried gas lines can also be damaged by excavating, including shallow excavating done by hand. Persons planning to excavate should contact North Carolina One-Call at 1-800-632-4949 a minimum of 48 hours prior to beginning the excavation(s). One-Call notifies companies having buried lines in the vicinity to locate their lines for you at no charge. It is your responsibility to carefully expose and protect buried lines in the area of your excavation.

RATE SCHEDULE 101 RESIDENTIAL FIRM SERVICE

APPLICABILITY

This rate schedule is available to Residential Customers in residences, condominiums, mobile homes or individually metered apartments where natural gas is used for domestic purposes. Separate meters, separate accounts, and separate locations may not be combined for billing under this Schedule.

RATE

The applicable monthly facilities charge and the Natural Gas charge for this Schedule are set forth in the currently effective Rate Schedule 101 of this tariff, which is incorporated by reference.

The minimum monthly bill is the amount of the facilities charge. The facilities charge shall not be prorated for changes of service during a billing cycle.

PAYMENT OF BILLS

Bills are due and payable upon receipt and become past due 25 days after the billing date. A late payment charge of 1% per month will be added to all customers' balances of \$10 or more not paid within 25 days after the billing date.

A charge will be made for checks returned by the Customer's bank for insufficient funds. Reconnection charges will be made to restore service: (a) which was discontinued and reconnected at the request of the Customer at the same premises within the past year; or (b) which was discontinued for nonpayment of bills. These charges are set forth in the Company's approved Rules & Regulations.

RIGHT OF WAY

The customer shall at all times furnish Frontier a satisfactory and lawful right-of-way, at no cost to Frontier, through the customer's premises for Frontier equipment necessary or incidental to the furnishing of service. The customer shall also furnish satisfactory protection for Frontier equipment installed on the premises. Right of way shall be inclusive of service line, main line, including any necessary farm tap or regulation needed to obtain gas service on or through stated property.

Frontier's obligation to supply service is dependent upon its' securing and retaining all necessary rights-of-way for delivery of such service. Frontier shall not be liable to the Customer for any failure to deliver service because of Frontier's inability to secure or retain such right-of-way.

A request for service and the customer's acceptance of such service from Frontier Natural Gas shall be deemed to be a granting to Frontier of an implied right-of-way over the premises.
